## — Log. —

of the iron Clipper Ship "Hesperides"

1st day - September 27th 1878

As all my readers are mostly aware we started from the Blackwall pier (East India Docks) at 1.30 p.m. & after a short farewell & a pleasant little trip we arrived at Gravesend at 3.45. where we stopped for the night. Arthur & I went on shore for a couple of hours to see his father off & to take our last glass of bitter & after a very good tea & supper (combined) prepared by the cook we all turned in at 11.15 thus bringing our first day on board to a close. During the night we managed to catch a few cockroaches of which there seem to be any quantity. As yet there are no signs of seasickness
