You could locate this [Investigative Discourse Analysis: Statements, Letters, And Transcripts By Don Rabon, Tanya Chapman](#) lodge this website by hooking up to the internet.

INVESTIGATIVE DISCOURSE ANALYSIS: STATEMENTS, LETTERS, AND TRANSCRIPTS BY DON RABON, TANYA CHAPMAN PDF

Too often investigators consider written statements, transcripts of interviews and interrogations, and letters as mere pieces of paper to be filed. They are only useful at face value — as simple records, sworn statements, archives. In this book, Rabon demonstrates that these files can be put to work and can mean much more if the investigator uses proven techniques to move beyond the archive.

Good information by a nationally recognized authority

By Phil

What is "statement analysis"? An investigator primarily uses statement analysis to study a person's choice and organization of words to gain the most information from that person's statement. Statement analysis represents a powerful tool because it goes beyond assessing the statement's content and the interviewee's non-verbal behavior.

Don Rabon is a nationally recognized authority on statement analysis. This book provides some excellent information about statement analysis, as well as excerpts from statements that you can analyze to help understand and develop these skills. The appendix provides answers to the exercises that appear throughout the book.

I highly recommend that anyone interested in statement analysis, however, begin with the book "In Search of Truth," by Daniel T. Marsano. It has these advantages over Mr. Rabon's book: It

1. presents the concepts and tools in a way that you can understand and work with much more easily;
2. explains why people unconsciously change their language patterns in ways that provide you additional information;
3. teaches you how to use statement analysis in oral interviews, rather than just how to use written or transcribed statements; and
4. shows you how to structure an interview to gain the most information.

The only disadvantage to "In Search of Truth" is that you'll need to order it through your book store. If, after

reading Mr. Marsano's book, you want to pursue statement analysis further, Mr. Rabon's is one you'll probably want to pick up.

A Clear, Focused Introduction

By Baudelaire

Mr. Rabon's book provides an excellent overview of the basic premises and practices of statement analysis, leading the reader through information and examples, including practice statements where readers can apply the information they have learned. For anyone wanting to know more about this field, this book would be an excellent beginning. Clear, well-organized, and user-friendly throughout. Ted Kennedy's statement about the Chappaquiddick incident is included, as well as the statement of Dr. Jeffrey McDonald regarding the murder of his wife and two children. Fascinating and revealing analysis of both statements gives this book an added zing.

Excellent addition to your library.... a "must have" volume

By PWJ

This is an excellent volume on analysis of a written statement and is a companion volume to Rabon's Interviewing and Interrogation text. If I were to use them in any particular order, I would use Investigative Discourse Analysis to gain an understanding of the importance of word choice and to build awareness of word choices prior to going on to developing interviewing skills.

I've had the pleasure of both reading these two texts and attending multi-day presentations by Rabon on statement analysis and interviewing & interrogation and can say that he does not waste time or space on fluff. His material is both substantive and carefully researched.

Rabon knows his stuff. In my mind, this material is primary and texts by other, well-known and recognized authorities in the field of interviewing and interrogation are secondary in my library on the subject.

So that you know the perspective from which I come, my work involves fraud - primarily in the areas of embezzlement and financial statement fraud.
