

2017 Women's Leadership Conference Presentation Proposal

The Women's Leadership Conference is an event held to coincide with Women's History Month and is designed to bring female leaders from Mid-Missouri together to discuss the past, present, and future of women's leadership on a global level. The conference is built upon four pillars: networking, education, empowerment and diversity.

The conference incorporates students, staff, alumni, and community members as speakers and presenters. The content highlights issues focused on women leaders in a collegiate setting and beyond. These issues will be discussed through a keynote speaker, various breakout sessions, and special presentations. Topics we hope to cover include but are not limited to visioning, work/life balance, leading with passion, feminism, self-awareness, strengths-based leadership, and professional development.

We believe everyone has the ability to lead and create positive change. The Women's Leadership Conference is a resource for collegiate women to use as they plan and achieve their professional and personal goals. We accomplish this by embodying our four pillars throughout the conference planning process.

Our theme for 2017 is Women In Power. This theme was chosen to illustrate women's shared experiences and struggles throughout their lives and leadership journeys.
