Student Nurses Association

Cleveland State University

Our Mission

It is the mission of CSU Student Nurses Association to provide students with a diverse background in Nursing and to establish a strong network between student, local, and national members of the Student Nurses Association by using the skills and knowledge acquired through clinical, work, and school, in order to fulfill their aspirations and expectations of this organization. Our experienced, knowledgeable and professional executive board will help inspire, educate and problem-solve for our members, as well as faculty, within the School of Nursing at Cleveland State University

Represent, Serve, Mentor

Cleveland Foodbank

The Cleveland Foodbank works closely with other Northeast Ohio hunger relief organizations to supply a majority of the food used in local hot meal sites, shelters, and food pantries throughout Cleveland and surrounding cities. The Foodbank also provides food to child care centers, group homes, and programs for the elderly.

SNA volunteers assist the organization by sorting and packing food items that have been donated to be delivered to the Greater Cleveland area.

Thursday, February 26th 4-6pm

MedWish International

MedWish International is a non-profit organization committed to repurposing medical supplies and equipment discarded by the healthcare industry with the objectives of providing humanitarian aid in developing countries to save lives and reducing waste to save our environment.

Saturday, February 20th 9:30-12pm

Ronald McDonald House

The Ronald McDonald House of Cleveland supports families whose children receive treatment at area medical centers by providing a home-like environment and essential resources and services. The purpose in doing so is to provide families with a support system to rely on during the most stressful moments of their lives.

SNA volunteers assist the organization by purchasing, preparing, and serving a meal for the patients' families.

BSNs on a Mission: Dominican Republic

May 28-June 4 2016

BSNs on a Mission: Dominican Republic

Medical teams are sent to clinics in areas outlying rural villages in the Dominican Republic. Their purpose is to provide healthcare to the poor villagers who have little or no access to medical care.

Patients of the clinics may have unresolved issues and will bring laboratory results, x-rays, CT scans, and ultrasound reports to be interpreted. These patients have typically received no treatment related to these results or their related diagnoses. Some patients will have run out or cannot afford to purchase medications which they require. Medical teams are typically able to provide a limited supply of the medication to last a month or two.
