Debbi,

I am sending along a couple of emails you might like to have if you are reporting out on the SAAC class.

Subject: [REDACTED]

Mindy,

I just met with one of our students from the athlete's section, [REDACTED]. [REDACTED] is on the [REDACTED] and has an aspiration to help student athletes with mental health issues. She is working very hard on this and can make a positive different. While I am not [REDACTED] coach, I admire what she is trying to do and wanted to try and be helpful to her.

Anyway, when we were wrapping up she said, "This is the best course I have taken at UNC." Of course this class is "what you put into it is what you get out of it" so this comment is really about [REDACTED] and her drive and high standards.

I am very proud of her and was thrilled to hear that your program and our class is making a positive difference. Just wanted to brighten your day.

/Stuart.
