

Tentative Assignment Schedule #1

Math 155 Spring, 2017

Dan Munton

Bittinger/Ellenbogen/Johnson, 4th

The majority of each assignment is to be completed on MyMathLab, the online homework system. However, mathematics is best learned through writing. Most assignments will have additional exercises from the text or eText, as listed below. These exercises should be submitted on binder paper following the format discussed in class. I expect that you take particular care in presentation of this work.

Asst. #	§	Assignment	Due	Score
Optional	None	Visit my Office for 5 – 10 minutes after August 23 and before September 9. This will replace your lowest written homework score with a perfect 12/12! It will not replace missing scores.
