

# Short Essays for Class 5

---

## **My Favorite Hobby – Reading Books**

Reading books is my favorite hobby because it takes me on exciting adventures without leaving my room. I love getting lost in stories about brave heroes, magical lands, and fascinating animals. Reading helps me learn new things and expand my imagination. When I read a book, I feel like I'm part of the story, meeting new characters and exploring different places. I enjoy reading all kinds of books, from mysteries to fairy tales. Reading also improves my vocabulary and helps me do better in school. I believe reading is a fun and valuable hobby that everyone can enjoy.

## **The Importance of Friendship**

Friendship is important because friends make our lives happier and more meaningful. Friends are there to support us when we're feeling sad, and they celebrate with us when we're happy. Good friends listen to us, help us solve problems, and make us laugh. Spending time with friends makes each day more fun, whether we're playing games, sharing stories, or just hanging out. Friends also teach us how to be kind, honest, and understanding. I believe that having friends helps us become better people, and I'm grateful for all the friends who make my life brighter.

## **My Favorite Season – Winter**

Winter is my favorite season because I love the cold weather and all the fun activities that come with it. When winter arrives, everything changes; the air feels crisp, and sometimes, it even snows! I enjoy building snowmen, having snowball fights, and going sledding with my friends. Winter is also the season for cozy sweaters, warm blankets, and hot chocolate. It's a time when families come together to celebrate holidays like Christmas and New Year's, which makes it even more special. Winter may be chilly, but it brings a lot of joy and excitement, which is why it's my favorite season.
