

Photography Club Proposal 2013

The objective in this proposal is to form a Photography Club for Cony High School. We are trying to add another club to expand people's options and draw in students who might not have an interest in any of the other clubs provided at Cony. It would get students involved with other events and activities that are going on around in the school. By creating this club students will be able to learn how to take pictures with more perspective and also use that ability to benefit the school in many ways.

The first meeting will be in Mr. Morgan's art room to determine the future times of the actual meetings. These meetings will be held after school when the majority of the people can attend. Jason Morgan will be the photography club's advisor. He and the club leaders will be in charge of organizing most meetings, having the proper equipment available and incorporating dates when guests/professionals will present and teach the students how to use the camera equipment properly. Club presidents and vice presidents will be elected to help with organizing meetings and dates also.

If the Photography Club is successful then some events the club will be in charge of would be taking pictures for school dances, sporting events, Chizzle Wizzle, pep rallies, students, teachers, and other clubs. This way when Cony's own students are taking the pictures it will get them more involved with the activities around them as well having a student to represent Cony in a purposeful way. It will also set a foundation for when a student wants to exceed in the photography field. The club itself will have projects and assignments that the students will participate in to become better photographers. Students who want to take part in the Photography Club will find that it is fulfilling, interesting, fun, rewarding, and creative.

In conclusion, the Photography Club would be an excellent addition to the many clubs Cony has to offer. The club will be willing, with their experience, to help take pictures for the Rameses and the Year Book Committee as well. This way, instead of having one person taking pictures, the Yearbook Committee and the Rameses won't have to worry about not getting/taking pictures for a certain event. The Photography Club will give students the chance to learn a new medium as an art as well as give them a chance to experience something new.

Thank you for your consideration,

Courtney Mills
