

Industry-leading equipment, from industry-leading vendors

The pharmaceutical, cosmetics and food and beverage industries demand state-of-the-art equipment designed with cleanability, sterility and changeover time in mind. With so much at stake with each batch of product our customers produce, we make it a point to only align with trusted, reputable manufacturers.

For this reason, we are committed to fostering positive relationships with industry-leading sanitary process equipment vendors. As long-term business partners, we know we can count on our partner manufacturers to provide consistent pricing, uphold project timelines and facilitate quick and unusual requests. At Triangle, we know that our vendors truly provide the foundation for our superior customer service.
