

**Q. Write in about 120-150 a debate agreeing with the topic 'School uniforms should not be abolished'.**

**Answer:**

Respected judges and teachers.

← **Address to the listeners**

Today, I stand before you to express my views for the motion of the given topic for debate. I believe that the uniform is an essential part of school education

← **Opening lines**

Uniforms put children in a serious and consistent mental atmosphere. The formal set up of education gains importance through uniforms. Uniforms create a sense of discipline in the class. It breaks the wall of disparity that exists between students of different caste, status, religion, etc. Students who cannot afford to wear new clothes every day do not have to suffer from inferiority complex. The sense of secularity brings peace, harmony and equality among students. Also, if students wear uniforms, it would distinguish them from strangers or intruders in the school.

← **Body**

In my opinion, uniform is a symbol of keeping each student at the same place without any sense of impartiality. It is one of the most essential parts of a school.

← **Conclusion**

Thank you for listening to my views patiently.

← **Closing note**
