Admissions Committee,

[Private School Name]

Dear Members of the Admissions Committee,

I am pleased to recommend Liam Johnson for admission to your esteemed private school. I have had the pleasure of teaching Liam for the past two years in both 4th and 5th grade, during which time he has consistently demonstrated a love for learning, excellent academic skills, and a positive attitude. I believe he will thrive in the enriching environment your school provides.

Liam is an inquisitive student who has a strong aptitude for both math and science. He eagerly participates in class discussions and often goes beyond the basic curriculum to explore topics in depth. For instance, during our recent science project, Liam researched additional materials on renewable energy sources and presented his findings to the class. His enthusiasm for learning and his ability to think critically will make him an asset to your school.

Aside from his academic achievements, Liam is a kind and respectful individual. He treats his classmates and teachers with genuine kindness and often volunteers to help others. He has been an active member of our school's Peer Mentoring Program, where he assists younger students with their studies and helps them adjust to school life. His empathy and sense of responsibility reflect the values that align with your school's mission.

In summary, I strongly support Liam Johnson's application to [Private School Name]. His intellectual curiosity, respect for others, and strong moral character make him an ideal candidate for your institution. If you need further information, please feel free to contact me at (555) 123-9876 or linda.collins@sunnybrook.edu.

Sincerely,

Mrs. Linda Collins

5th Grade Teacher.
