Dear Paul Tanners, DDS,

We haven't seen you for over 2 years, and we wonder if we should be concerned. A lot can happen in that time - in your life, and with your teeth and your smile.

We'd like to see you again, for a professional cleaning and examination, including an oral cancer screening. If you've experienced any kind of dental pain or other problems, it's important to know that these things rarely fix themselves, and that delaying treatment frequently results in more serious problems and increased cost of treatment.

If you haven't had any problems, great! There's nothing like a regular schedule of cleanings and other preventive care to keep it that way.

Please give us a call to set up an appointment. Or, if you've moved away or decided to go to another dentist, please let us know that, too - so we know we don't have to worry about you. You can call us at 212 697-1122 or email us at [doctann@aol.com](mailto:doctann@aol.com).

Sincerely,

Paul Tanners, DDS
