Kodiak

We got our room, breakfast delivered
about 7:30 a.m. & by that time we
were well into the corridor...
I was wearing 3D pants, a hoodie
sweatshirt & wrapped in 3 beach
towels to keep warm...
Further down to the mouth of the
lake, were bigger pieces of ice which
had clearly broken off from the
Sawyer Glacier much longer ago
& floated all the way out, melting
along the way.

As we got closer to the Glacier the
water seemed almost covered up a
I'm so amazed that we got as close as
we did to the glacier.
