

The mission of Fukuoka International School is to create a dynamic learning environment in which students can be educated to high international academic standards. We strive to be a model of unity in diversity in which the individual is respected and each student is challenged at his/her own level.

“Inspirational high quality education for the future globally minded citizen”

CURRICULAR OPTIONS

FIS will explore options for alternative diploma programs, prek-12 curriculum, and enhancement of the ELL department.

Ensure an innovative, inspiring and rigorous curriculum that is effectively linked up and accessible for students across the age range

Review and define grades 6-10 curriculum to align with the PYP and DP

Effectively integrate technology to enhance student learning, while being mindful of the social impact of technology

Further improve and enhance the ELL department

FIS Strategic Plan

RECRUITMENT & RETENTION

FIS will attract and retain the best possible teaching and non-teaching staff.

Attract and retain high quality staff, ensuring that professional remuneration packages are financially sustainable

Continue to improve and enhance the staff benefits including FT and PT staff

FACILITIES

FIS will have a facility that meets the dynamic requirements of an inspirational education for our students

Research trends in education affecting teaching and learning environments

Develop a plan for an inspirational educational facility

Develop a plan for financing the new facilities

FINANCES

FIS will become financially self-sufficient in order to support the school's strategic goals.

Investigate new sources of revenue

Establish a cycle of regular review of tuition and fees

Establish a robust giving program

Investigate opportunities to decrease expenses
