Appreciation of Things: (Practical Ability)

Your compulsion for seeing things in an unconventional and possibly creative manner can cause you to overlook concrete, practical values, flaws in things and concrete detail. Build a sensible system to help maintain a sense of balance and seek feedback to test the relevance and practicality of your inventiveness.

Role Satisfaction: (Self Starting Ability)

You are currently in social/role transition uncertain about what you want to do and feeling frustrated and dissatisfied about your current circumstances. Your uncertainty can lead you to impulsive decisions or actions and can cause you to either over estimate or under estimate your ability to perform.

Results Oriented: (Drive)

Your unconventional, individualistic and inventive common sense, practical thinking can cause you to be consistently driven by the need to create results generating a compulsion to see and do things from a new or different perspective and can interfere with your ability to get things done.
