

DAY 3

THURSDAY,
SEPTEMBER 27

DAY AT THE BEACH

We went to the beach and found some
things to take home.

Sea urchin

Two open clams

We spent all day walking up and down on the beach and watching

We picked up seashells on the beach, and when the tide went down we found some tide pools where there were crabs and starfish and hermit crabs and one snail. We found a live starfish creeping along the sand just where the waves were washing in at low tide. There are many crabs and gulls that walk up and down the beach. We also saw a seal poking its head out of the waves.

Scallop

Scallop

Scallop

the tide go from high to low. It was very warm and sunny.
