

EXECUTIVE SUMMARY

After falling slightly during the 2007-09 recession and its aftermath, food away from home's share of total food expenditures rose to 49.6 percent in 2013 and in 2015 sales at restaurants and bars overtook spending at grocery stores in March for the first time ever, according to Commerce Department data on January 2015, that dates to 1992. This trend is fueled by better economic performance and expanding cities, where eating at home gets harder every day.

These statistics represent a Green Light for smart business people that are interested in taking advantages of social trends that will make their ventures successful in an easier manner.

House of Mango Inc. is a Company that is intended to operate a chain of snack bars named House of Mango that started operations in February 2016 with its first outlet located in Houston Texas.

The Company was founded in November 2015 and after obtaining permits and going through the remodeling process of a very convenient property, hiring personnel and acquiring and installing state of the art equipment, is ready to become a new attraction in town where taste matters. Its founders, Emma Martinez and Francisco Aparicio are seasoned entrepreneurs and great managers with proven leadership skills and an old recipe for success: great food, fair prices, cleanliness and warm service.

House of Mango is a snack bar that offers, among other selections, several fresh mango specialties, including the legendary Mangonada from Mexico, Fancy Nachos, Ice Smoothies known as Raspas and corn prepared in several ways that appeal to every taste as well as other very popular Latin American snacks. The menu includes popcorn and ice cream for more conservative customers. Another staple of these kinds of places are the Aguas Frescas (Fruit Drinks). The potential for Companies offering these products in Houston and all over Texas is huge since the Hispanic influence in every aspect is something that anyone can feel even after just minutes being in town.
