

Biological Hazards

Bacteria (spore-forming)

Clostridium botulinum

Clostridium perfringens

Bacillus cereus

Bacteria (non-spore-forming)

Brucella abortis

Brucella suis

Campylobacter spp.

Pathogenic *Escherichia coli*

(E. coli O157, EHEC, EPEC, ETEC, EPEC)

Listeria monocytogenes

Salmonella spp. (*S. typhimurium*, *S. enteritidis*)

Shigella (*S. dysenteriae*)

Staphylococcus aureus

Streptococcus pyogenes

Vibrio cholerae

Vibrio parahaemolyticus

Vibrio vulnificus

Yersinia enterocolitica

Viruses

Hepatitis A and E

Norwalk virus group

Rotavirus

Protozoa & Parasites

Cryptosporidium parvum

Diphyllobothrium latum

Entamoeba histolytica

Giardia lamblia

Ascaris lumbricoides

Taenia solium

Taenia saginata

Trichinella spiralis
