Dear Ms. Epstein:

Thank you for previously coming to our office for an examination. Our records indicate a recommendation that you be seen again on or about 12/19/2014 for a mammogram examination. Please call 763-995-9995x1234 and schedule an appointment.

Our records indicate you have not recently completed an expanded risk survey. Please bring your family cancer records so we can further analyze your risks for breast, colon and ovarian cancer.
