

Photography License Agreement

This Agreement is hereby entered into by and between Fordham University ("Fordham") and _____ ("Photographer") in connection with the provision of photographic services to Fordham from the signing date below.

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Fordham grants Photographer a limited, revocable and non-exclusive license to enter Fordham's premises as assigned to record still and/or video images.

Photographer agrees to grant Fordham a non-revocable, exclusive, perpetual license to use any and all still and/or video images that Photographer creates in connection with this Agreement, and Fordham shall be allowed to use such still and/or video images for any and all purposes, without Photographer's prior consent or approval.

Photographer shall not use the still and/or video images created in connection with this Agreement for any commercial or public purpose without the express written consent of Fordham.

Photographer retains the right to use the still and/or video images created for his/her own promotional purposes in all media (e.g. commercial portfolio, website, blog, direct mail and e-mail, advertisements and exhibitions), as long as Photographer does not depict the still and/or video images of the Fordham campus or Fordham's name, insignia, service marks, designs, logos, or symbols, in an obscene, offensive, or unfavorable manner.

Photographer is responsible for his/her actions related to the creation of the still and/or video images, and shall hold harmless, release, defend, and indemnify Fordham, its trustees, officers, employees, agents and assigns, against any and all actions, claims, fees, and expenses, which may arise from Photographer's creation of such. Photographer is not responsible for any claims and damages arising from Fordham's exclusive use of said still and/or video images.

Agreed to and accepted:
