**CAPTURING™**  
WEDDINGS

# ESSENCE OF PHOTOGRAPHY

A world without photography will be meaningless to us if there is no light and colour which opens up our minds and expresses passion.

That is why our company was established, to help you keep a record of important events in your life through the art of Candid Photography & Candid Videography.

Photography is an art, but people take photographs for many reasons. Photos can also be taken to serve as evidence on how something happened. It enables the viewer to experience similar emotions and feelings the photographer had. This is the reason why our company was formed, to help us keep our memories fresh with what has happened in the past.

We take photographs for various events including birthday parties, weddings, engagements, events, outings and much more...

CAPTURING  
WEDDINGS

## INTRODUCTION

WHY US?

Contracting us for your photography needs will be an assurance to you that your special event will be kept in remembrance and will be captured by our talented photographers using superior quality digital cameras. The quality of our photographs are indisputable and will bring a true image of the event you remembered it; allowing you to view the images over generations to come.

Not a single moment of the event will be missed by our professional photographers. With our professional equipment each individual will shine like a real star.

The quality of our photography does not depend on the weather conditions or other external factors that usually tamper with image quality. We utilise high resolution cameras such as Canon 5D Mark , Sony APSC Sensor Cameras & Go Pro .We use equipments such as Electronic Steady-cam, Slider, LED lightings, Dollys & Professional tripods.

Additionally, we use hi-resolution digital printers such as CANVERA™ (Bangalore) & ALBUM EPOCA (Italy) that produce high quality printed photographs that both you and your loved ones will enjoy.

# THE DESIGN PROCESS

A Six Step Approach To Photography In order to ensure high quality output, we have implemented a six stage approach to our photography process. Each stage is important in determining the succeeding step. The six stages are equally important in the whole process of photography thus each getting an equal amount of attention from our staff. Our clients are the pillar to the survival for our business, therefore we request you to provide feedback to us whenever we may need it from you.

# PROCESS

## 1. Survey of the photography site

Our staff take a survey to the area that our client wants the photography to take place in. This is an essential step to the process as it determines the right type of machines to be used in the process, it also assists us to estimate the costs to be incurred in the whole photography process. Our survey team will then recommend the best photographer who can work under the various conditions as well as the best cameras that will be able to produce quality photographs in the respective setting.

## 2. Agreement on cost with the client

After visiting the site, the initial costs are adjusted to cover all the costs adequately. This will be after the inclusion of travel & accommodation costs.

## 3. Carrying out the photography

Our team then travels to the site of photography to cover the events adequately, quality is emphasised through this exercise. All important events are covered adequately by our photography team.

## 4. Editing, storage and conversion of the photographs.

The photographs are then edited and converted to various formats that the client may want, additionally, we will provide a hard copy or transformed to any additional form the client may want.

## 5. Delivery and submitting of photographs to the client.

The photos are then delivered to our client, this process can be electronic or manual through our website or via e-mail.

## 6. Feedback

We then request for a feedback on the whole process from the client, the information we get is used to improve our service delivery process.

## GOALS AND TARGETS OF THE PROJECT

Due to the large ambition we have to adequately serve our clients and provide them with quality photographs, we will provide professional candid wedding photography and videography. The following terms and conditions concerning this project apply.

### GOALS OF THE PROJECT

- To be professional candid photography & videography.
- To give High quality picture & High resolution 1080p video.
- To capture picture technically.

### OBJECTIVES TO BE MET

Any type of business requires high responsiveness and cooperation from both the clients and the contractors for effective service and product provision. The client is obligated to make payments on time and the contractor is obligated to provide the product to the client promptly. We therefore have to meet the following conditions:

- Taking surveys prior to determine the best approach for a specific setting.
- Agreement with the photography team on which approach to use.
- Confirming the decision through intellectuality.
- Giving the photography team chance to suggest options .
- Giving views on the services offered by our company .
- Assessing whether the photographs produced match expectations .
- Editing the images to attain the required standard and high quality.
- Transforming the photographs from soft copy to hard copy .
- Storing the photographs into various mediums .
- Delivery and submission of photographs to client .
- Requesting for feedback .
- Sending of feedback .
- Evaluation of feedback and improvement on weaknesses highlighted .
