

# 490 / 390 / Lyell Ave Interchange Improvements

## Project Fact Sheet

- Overview:** The purpose is to optimize traffic flow in the vicinity, by reducing congestion and improving highway safety.
- When:**
- Preliminary Design: 18 – 22 months
    - Develop alternatives, obtain agency approvals, Design Report, selection of alternatives ... then
  - Final Design: 18 – 20 months
    - Develop detailed plans and specifications for the construction ... then
  - Construction: 6 - 7 years
- Funding:** This project is being funded with federal aid. We anticipate the work to be delivered in multiple stages. \$32 million has been allocated to fund the first stage.
- Noise Barriers:** Although the project is in its early stages, we do anticipate noise barriers to be incorporated into the project. Exact locations, styles, etc. will be determined as the project progresses.
- Real Estate:** As alternatives are developed and evaluated, the impacts to real estate, the environment and adjacent resources will be determined.
- Contacts:** Mohan Rao, Project Manager, 272-3363  
Rick Burgwardt, Project Design Engineer, 272-4815  
Paul Moore, Public Participation Specialist, 272-3444
