Ultimate Iceland Road Trip

Day 1: *Arrival and 1 night at Grand Hotel Reykjavik or similar*

Explore the city at your leisure! Visit the **Aurora Reykjavik Northern Lights Center**, enjoy a hot dog at the infamous Bæjarins Beztu Pylsur, or see the cathedral, Hallgrímskirkja.

*Optional activity: **Blue Lagoon**, depending on time of arrival.*

Day 2: *Explore the Snæfellsnes peninsula. 1 night at Hotel Framnes or similar in Grundarfjordur.*

The Snæfellsnes Peninsula (the peninsula of the snowy mountain) juts out from Iceland's west coast, like a long arm with a clenched fist at its tip, in many ways a microcosm of the whole island. Craters, lava flows, an ice cap, glaciated peaks, fjords, sandy beaches and high cliffs are its landscapes.

A rugged mountain chain runs its length, capped by the 1,446m Snæfellsjökull, a mystical cone-shaped strato volcano secretly known for being the entrance to the centre of the earth can be found according to Jules Verne. The south side of the peninsula is farming country yet has conserved much of its extensive marshlands, which are an important habitat for birds. Fringed by golden sand beaches, the wild and windswept coast is pounded by surf as it faces the full onslaught of an unforgiving Atlantic. The north side of Snæfellsnes is more sheltered and has fjords which make a good anchorage for fishing vessels.

*Optional activity: **Bird watching and fjord cruise** (only available May 25th - Sept 15th from 3:30pm to 4:50pm)*

Day 3: *Sites of West Iceland and Skagafjordur, valley of the horses and sagas. 1 night at Hotel Nordurland or similar in Akureyri.*

Stykkishólmur is a charming fishing town offering amazing view over Breiðafjörður fjord with thousands for small islands. Continue along the north shore of the Snæfellsnes Peninsula to Haukadalur, a rather authentic replica of the homestead of Eirik the Red, the famous explorer, who founded the Icelandic colony in Greenland. His son Leif-the-Lucky, born in Haukadalur, Iceland, went on to become the first European to set foot in North America. Now the excavated and reconstructed farm in Haukadalur is a living Viking museum which is a fun, informative and rather photogenic place. The landscape is dominated by mountains, valleys, the sea and wide open spaces. Continue to Skagafjörður, valley of the horses and sagas. Here you find the Glaumbær turf farm & folk museum and the Viðimýri church, one of the most beautiful examples of traditional turf church architecture.

Optional activities:

Seal watching in Northwest Iceland (1pm to 2:45pm)

Horseback riding in Akureyri (1.5 hr ride available at 10am, 2pm or 5pm)

Egilsstaðir is the center of East Iceland, located at Lögurinn Lake and not far from Hallormsstaður woods and Hengifoss, Iceland's 2nd highest waterfall. Continue to the small village of Fáskrúðsfjörður in the East Fjords for the evening.

The village of Hveragerði is heaven for outdoor activities and surrounded by volcanic mountains and beautiful green valleys with geothermal springs and even some natural hot rivers to take a bath in the wilderness. We recommend a South Iceland activity challenge day or simply explore the nearby seashore villages.

If you are up for more sightseeing by rental car, the Thjórsárdalur valley is well-known for its numerous excavations of old viking farms, which were buried by the ash of an eruption of Hekla volcano in the year 1104. The farm at Stöng is especially worth seeing. In this area are two beautiful waterfalls, Hjalparfoss that is easy to reach and Háifoss waterfall that is a bit off the beaten track. A short walk leads to the ravine Gjáin that offers a surrounding with waterfalls, lava formations and wonderful vegetation. This is an enchanting spot and not to be missed.
