Sales Order Ack. Disclaimer

*Lead times are given as good faith estimates based upon our production schedule the date the order is entered. Lead times are based upon prompt receipt of all necessary information, and do not include transit times. Revisions to the order, quoted materials, delays due to engineering issues, missing information (such as Schaefer's part numbers, pricing, etc.), wrong pricing listed, or not referencing a quote for special parts can also delay order processing/ship dates. Additions to an order that are already in production can also affect ship dates. The dates given on this acknowledgment are an estimate of the shipment, not a solid ship date.

*All orders are subject to Schaefer's Conditions of Sale as listed in our current pricing guide. Please review for info on terms, freight damages, taxes, warranties, etc. Single order shipments of \$2000 or more qualify for freight allowance. Enclosures over 96" tall, and orders shipping west of the Rocky Mountains are excluded from the freight allowance policy.

*Effective September 1, 2006, Schaefer's standard paint finish is Textured RAL 7035 (light gray). Our former finish, ANSI-61 (dark gray) will still be available at no charge. Please note: ANSI-61 finish must be specified by placing "-A61" at the end of the part number when placing the order.

*Please reference the quote number when placing order. Failure to reference the quote number may result in order delays. If modifications or revisions are required after items are quoted, they should be directed to the quoting department for revision prior to placing the order to prevent processing delays. It is the responsibility of the ordering party to have these changes confirmed with the quoting dept. before placing the order so the previous revision is not built and shipped.

*Pricing for standard items can be obtained from our website at: <http://www.electrical-enclosures.com/>

*All prices and parts listed on this sales acknowledgment are legally binding. If there is a pricing discrepancy, please contact our customer service department at (573)-986-9400, and provide any quotes or past orders to reference.
