About PwC

Our clients draw upon PwC's in-depth sector-based knowledge and broad dispute experiences for consulting as well as strategic advice, independent analysis and objective expert evidence. We bring on board an experienced team of specialists that investigates and analyses the project management, programming, financial and economic aspects of capital project disputes.

We offer:

- In-depth industry expertise and operational experience on complex infrastructure projects
- An independent perspective on construction and project disputes
- An ability to combine technical, contractual, financial and economic solutions
- Seamless global reach with teams working across different geographies
- An experienced team including civil engineering, business and finance expertise, accounting expertise, technology specialisation, valuation and investigation specialisation

We have assisted a wide variety of private and public sector clients including multi-national companies, international agencies, governments and local authorities, as well as numerous smaller organisations. Our clients cover a range of industry sectors, including:

- **Construction:** Public and private infrastructure, real estate
- **Transport:** Rail, road, ports and airports, highways
- **Energy:** Oil and gas, process plants, power and mining
- **Aerospace and defence:** Civil and military

Professional experience

How we can help you
