

Software Evaluation Assessment Rubric: Name(s) _____

Directions: Follow the evaluation tool provided by your instructor for the software evaluation review. After your review, submit the **Instructional Software Review** with this assessment sheet attached for feedback. The spaces provided on this sheet are for instructor comments.

_____ (10) **Complete information**

- Each section of the software review is completely filled out or an explanation is provided to explain why information is missing. Efforts were made to find more information about the descriptive information, system requirements, etc. if it was not provided with the software.

_____ (5) **Overview of software**

- The overview provided includes the major purposes of the software and is practical and useful to other teachers

_____ (15) **Notations in the “comments” justify ratings**

- Notations help the reader understand...(such as documentation is provided online is brief and hard to follow) would explain a lower rating

_____ (10) **Recommendation**

- The comments provided are formed from the overall rating of the software and are helpful to teachers in deciding whether this is appropriate software to use for instructional purposes. Could this software be useful in enhancing instruction in a K-12 classroom?

_____ (10) **Reflection of Activity**

- How did this activity assist you (or not) in meeting the learning objectives associated with the software chapter?

Software Evaluation Assessment Rubric: Name(s) _____

_____ **(50) Total Points**
