

## PERFORMANCE STATISTICS GOVERNED RETIREMENT INCOME PORTFOLIOS SEPTEMBER 2019

The Governed Retirement Income Portfolios (GRIPs) have been designed to compliment our Income Release contract when taking income from your pension plan. Invested in a portfolio of mixed assets, there are five portfolios to select from, each one taking a bit more risk.

The portfolios come with ongoing governance. This simply means that our investment experts check them regularly. It allows us to maintain the best mix of assets in line with each risk category - and to make sure they are performing in line with their overall objectives. The value of your investment can go down as well as up and you may not get back the value of the original investment. If our experts decide that the mix of assets needs to be adjusted, it happens automatically on your behalf, you don't need to do anything. What's more, this service comes at no extra cost.

### GRIP 1

- 15.50% Equities
- 5.00% Property
- 4.00% Commodities
- 2.35% Global High Yield
- 2.25% Short Duration Global HY

Source: Lipper, bid to bid, as at 31.08.2019, Royal London, as at 31.08.2019.

**All performance figures, including the figures shown for the growth in the benchmarks, have been calculated net of the 1% annual management charge.** The compound annual growth rate (C.A.G.R.) is a measure of the investment returns, on a given fund, over the specified period. It allows for the impact of compounding of investment returns which is particularly important where returns vary from one year to the next. The GRIPs and their benchmarks are rebalanced on a monthly basis. This is the process of making sure the asset mix of the investments is maintained following movements due to fund price changes.

\*Governed Retirement Income Portfolio were launched 28.02.2012
