

Video Documentation Plan

The data you will gather to study your research area:

Who, What, When and Why

Research Question: _____

WHAT: the activity I will video:

What do I hope to capture? (i.e. students doing... teacher doing...)

WHO : the 3-6 students I will focus the camera on, and WHY they provide a good window onto my research.

Where the videographer should stand to get best a) view and b) sound

(What sound will have to be captured? What challenges do you anticipate?)

How Artist should group and situate students: *For small group work:* can the students being videoed be placed at some distance from the others?

No Photo Releases? Which students cannot be videotaped? Where will they be placed in the room?
