Letter of Guarantee: Antimicrobial Products for Food-Contact Surfaces

The *Sanitation Performance Standards Compliance Guide* requires an establishment to develop and employ sanitation or processing procedures that meet USDA regulatory sanitation performance objectives.

Sanitizers such as those listed below should only be applied to cleaned surfaces. Sanitized food contact equipment and utensils must be adequately drained to prevent food adulteration.

The product(s) listed below are registered as antimicrobial product(s) for food-contact surfaces under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) by the Office of Pesticide Programs, United States Environmental Protection Agency (EPA). It is a violation of Federal law to use a registered product in a manner inconsistent with its labeling. The EPA registration number appearing on the label provides access to documentation regarding these products.

Guaranteed strengths are at time of packaging. Use a chlorine test kit to determine exact available chlorine and adjust as necessary to obtain specific ppm.

The following products are safe and effective for **sanitizing and/or disinfecting** and do not require a potable water rinse as directed on the label:

Austin A-1 Bleach EPA Registration Number 1672-20004
NSF Registration 046926 Categories B1, B2, D2, Q4
Guaranteed 5.25% Sodium Hypochlorite

Austin A-1 Ultra Bleach EPA Registration Number 1672-65
NSF Registration 146950 Categories B1, B2, D2, Q4
