

TWENTY FOUR (24) HOUR SHIFT REPORT

State Form 35016 (R5 / 11-15)
LOGANSPORT STATE HOSPITAL

[illegible]

If patient answers yes to the following question asked by the attendants, "How are you feeling has anything unusual happened today?", nursing documentation must include what precipitated those feelings, specifically in the patient's own words, what those feelings are and what the nurse did for treatment. It must be noted if the treatment was effective and, if not, what follow up was done. If the patient has feelings of self destruction or a life changing event (divorce, death of a loved one, fight with a loved one, going to jail, or discharge from the facility), the Suicide Lethality Scale must be done and physician notified. All documentation in the nurse's notes must be noted in an abbreviated fashion on the twenty-four (24) hour report sheet.
