PT. Mokko Otomasi Indonesia is a company engaged in the Automation & Conveyor System. Established since mid-2016 and has experience in the manufacturing and food & beverages industry.

We are ready to assist you in providing a complete range of engineering services and solutions, implementing and updating the automation and SCADA systems according to the overall process and project needs.

About Us

We are a company engaged in the Industrial Automation & Conveyor System. We also provide services and packages for Warehouse Automation System, Food & Beverages Industry, Distributed Control System (DCS), Programmable Logic Controller (PLC), SCADA & Database System.

Our Vision

Assist and develop Automation System & Conveyor System in production processes in industry effectively to increase productivity and efficiency continuously.

Our Mission

- ◆ Be able to provide integrated solutions between machines, automation and IT towards Industry 4.0
- ◆ Be able to produce System products that provide added value to users of the product or service

OUR CUSTOMERS

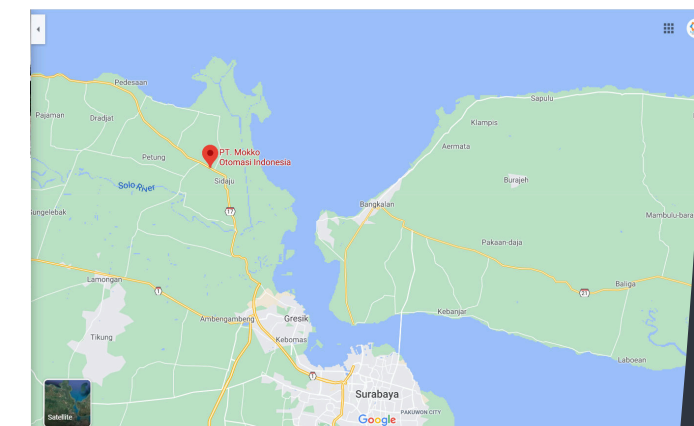

OUR PROJECTS

- ◆ Upgrade Horauf Paper Machine with Mitsubishi Q Series PLC & GOT HMI
- ◆ Upgrade Blow Molding Machine P18 with Dual Stepping Mode
- ◆ Upgrade Blow Molding Machine P9 with Mitsubishi FX Series PLC
- ◆ Upgrade Cutting Machine with Hidraulic Motorized
- ◆ Upgrade Sleeve Bottle Labeling Machine
- ◆ Upgrade PLC System Siemens S5 to Siemens S7 for Expand Machine
- ◆ Upgrade CNC Pipe Bending Machine with Mitsubishi Electric
- ◆ Upgrade MC Pad printing machine from Siemens S5 to Mitsubishi Electric PLC
- ◆ Create 2 Meter Modular Conveyor
- ◆ Create 2 Meter Flat Belt conveyor
- ◆ Create Z Modular Conveyor with Baffle
- ◆ Create Roller conveyor System with auto Feeding System
- ◆ Foodgrade Conveyor System with Barcode
- ◆ Create Leaktester Machine with Single Head Nozzle
- ◆ Create Leaktester Machine with Two Head Nozzle
- ◆ Safety Device for Engine and Ballast with PLC System
- ◆ Database system with local server
- ◆ IoT Training Kit & Etc.

Industrial Automation & Control

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

PLC

Designed for the future, Ethernet based and Programmable Automation & Safety PLC for process, high availability & safety stand-alone solutions

HMI

Performs all of the HMI functions with exception of operator interface, and runs as a windows service under the operating system.

INDUSTRIAL NETWORK & COMMUNICATION GATEWAYS

Provides the most essential capabilities of industrial network and communication protocol in industrial automation applications.

SERVO DRIVES & MOTORS

Medium-inertia, high-accuracy and high-speed motors. The servo motors, which boast smooth rotation and outstanding acceleration capabilities, are well-suited to serve as feed axes of machine tools.

VARIABLE SPEED DRIVES

Enables more control of your motor speed and energy management as well as enhanced process optimization and asset management

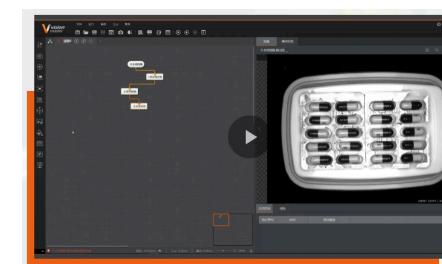

SCADA

We provide SCADA system for industrial process and production with modern graphic and tools.

VISION SENSOR

Vision sensors are used for detecting the physical presence, color and/or shape of a part to determine and inspection.

Vision Software

The platform can be used in various machine vision applications such as visual positioning, size measurement, defect detection, and information recognition.

Mobile Robot

Latent Mobile Robot has an optimized motion performance and enhanced safety protection. It helps customers create a safer working environment and more cost-effective productivity.

Conveyor System & Parts

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

TABLE TOP CHAIN CONVEYOR

A large selection of straight running and side-flexing chain are designed to convey flawlessly in even the most demanding environments

MODULAR BELT CONVEYOR

Modular Chain provides a continuous conveying for applications demanding greater width requirements. Available in assembled-to-width and molded-to-width configurations

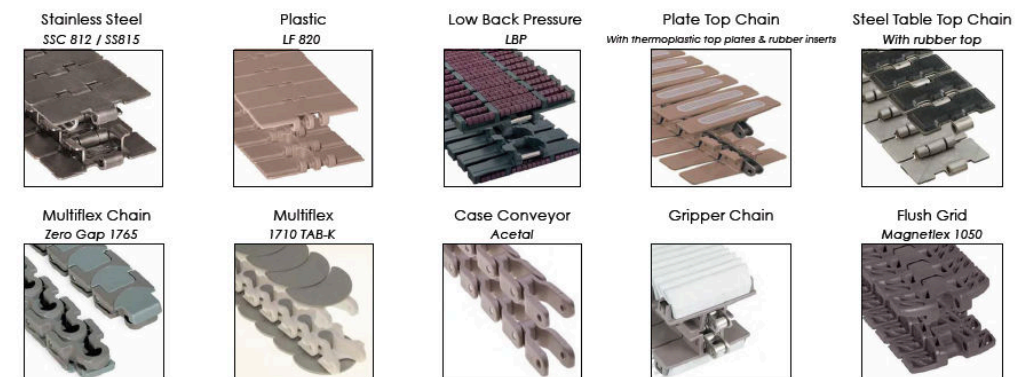

BELT CONVEYOR

Belt conveyors are an excellent choice for an inexpensive and simple method of moving products from one point to another

CONVEYOR PARTS

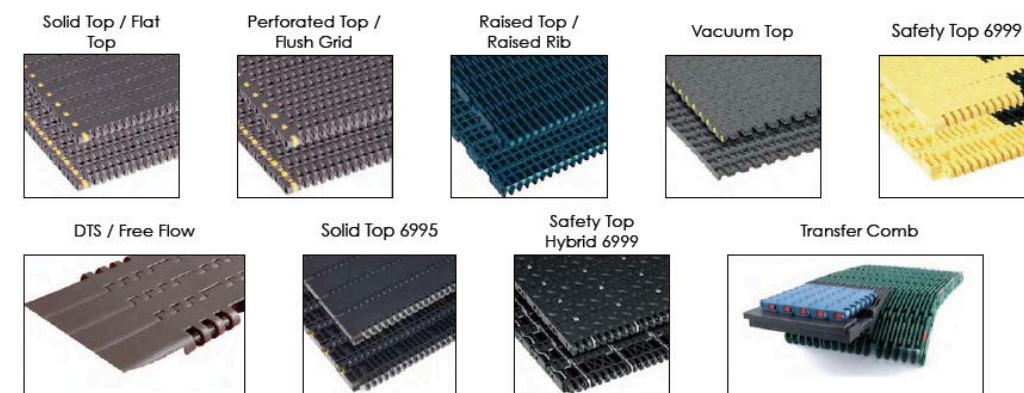

Table Top Chain

There are 2 types of table top chain, straight and side flexing. The products are divided into the following categories :

Mat Top Chain / Modular Chain

We offer a wide range of products to suit any applications. The pitch varies from 0.5 to 2.25 inch.

Vacuum Lifter & Gantry System

MATERIAL HANDLING EQUIPMENTS FOR YOUR APPLICATION

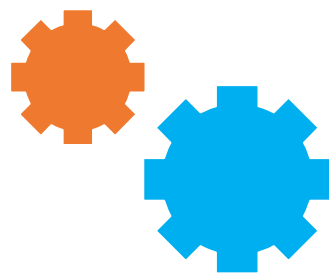

Material handling equipments are devices in handling processes that are able to lift, move loads and put them down again with the help of vacuum. Our goal is to make your work physically easier – focusing on efficiency, ergonomics and safety. We are using our knowledge, experience and positive attitude to make it easier for you – before, during and after your purchase.

Gantry System

- More Quickly
- Precision
- Extreme accuracy
- Repeatability
- Up to 5 axis of motion

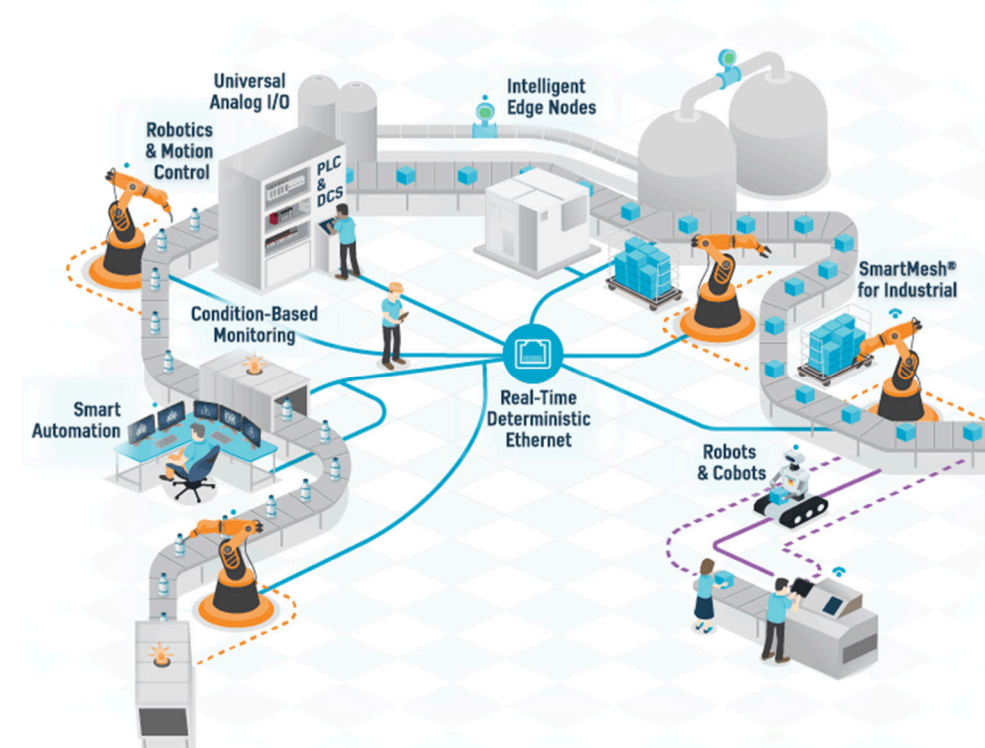

Applications for:

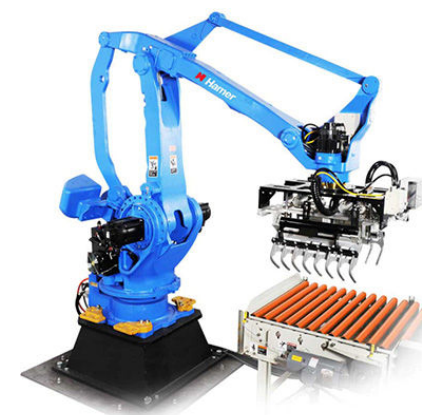

- Boxes
- Woven Sacks
- Glass
- Sheets
- Barrels
- Buckets
- Up To 300kg

Automation for Industrial 4.0

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

Robotics

- ♦ Palletizing
- ♦ Assembling
- ♦ Material Handling
- ♦ Painting

YASKAWA

Warehouse Management System

- ♦ Biometric Finger Print / Face Detection
- ♦ RFID tag System
- ♦ ERP System
- ♦ Automated Inquiry and Check Stock
