Welcome

We are a full-service interior design and renovation company based in Mumbai. We look forward to working with you to help you execute your interior design dream.

We believe that the process of designing your home should be a breeze. And we believe in democratizing the process of interior design and in maintaining the highest standards of transparency and excellence.

And accordingly we place you, the client, at the center of our design process. We will start off by consulting with you to understand your vision for your interior design project. We will also give our own inputs, based on our extensive experience, as to what we believe would work.

Finally, with a design plan finalized, our team will go over it thoroughly and sketch out the entire process to understand the budget and expected date of handover.
