

# COLLEGE VISION BOARD ACTIVITY

College lists can be overwhelming and at times require extensive research. The goal is to make the research part more exciting and fun, while also exploring in depth the schools that interest you the most and seeing if they have the resources best fit for you!

- 1 Pick a school on your college list that you are interested in learning more about.
  - 2 Explore the college website to find the following:
    - A resource center you see yourself using
    - A major you would be interested in pursuing
    - One campus event you see yourself attending
    - A club or student organization you would be interested in
    - Pictures of the surrounding city! Are there beaches, parks, other attractions you would like to visit?
    - Class size! Pictures of the classrooms.
    - Pictures of any other things for the school that interest you
  - 3 Now create a visual that shows the opportunities you found for the campus you selected. Ideas for vision boards...

    - [Pinterest](#) Board
    - Google Slide
    - Google [Jam Board](#)
    - [Padlet](#)
    - [Canva](#)
    - Print & Cut Collage
    - or whatever other media form works for you!
  - 4 Repeat with as many schools as you would like! We encourage you to do this with one of your safety target, and reach schools. Plus do this with a 4-year and a community college!
