

City Budget Strategic Business Plan

The Budget provides the residents of Irvine with a plan for matching available resources to the services, goals and objectives specified in the City's Strategic Business Plan (SBP). The fiscal year begins on July 1 and ends on June 30.

Irvine's first Strategic Business Plan was adopted in 1994 to help the City Council assess the impact of policy decisions on the City's future quality of life. The SBP evaluates the City's financial capability to achieve its goals; helps set priorities for City operations and the annual budget; and guides the City's capital improvement and rehabilitation program. Please find the Strategic Business Plan in the City Budget.
