

RemoteWare Product Note

RemoteWare Messaging Is Not Certified for Outlook 2003

Aug 10, 2004

The XcelleNet Product Division of iAnywhere Solutions, A Sybase Company announces that RemoteWare Messaging is not certified for use with Microsoft Outlook 2003. At this time there are no plans to proceed with this certification.

As always, we welcome your comments on our suite of software products and our service to you. If you have any questions about this Product Note, or would like more information on RemoteWare 4.1, please contact your Account Manager or XcelleNet Product Support.
