

### Airplane Lab Conclusion Paragraph Outline

Write your conclusion in a paragraph after your data table and graph. You will need to make each of these sentences correct for your lab experience. This is just a guideline to follow.

#### **Conclusion:**

The purpose of this experiment was to determine whether the standard or modified plane would fly further. The hypothesis was **(HERE YOU INSERT YOUR HYPOTHESIS STATEMENT)**. This hypothesis **(WAS OR WAS NOT)** supported. The average distance the standard plane flew was \_\_\_\_\_ cm. The average distance the modified plane flew was \_\_\_\_\_ cm. Some limitation of the experiment were **(INSERT THINGS THAT MAY CAUSE YOUR RESULTS TO BE UNRELIABLE. DID YOU CHANGE THROWERS? WAS YOUR MEASURING PRECISE? DID YOU END UP MAKING ALL OF THE MODIFICATIONS YOU PLANNED OR DID YOU CHANGE SOME? DID YOU THROW WITH THE SAME FORCE EACH TIME?)**.
