

*Graduate Thesis, Creative Project,
and Research Paper Guide*

Thesis, Creative Project, Research Paper

THESIS OVERVIEW

What is it?

You can receive 6 hours of graduate credit for completing a thesis. This is a comprehensive research paper directly related to your degree or area of specialization. You'll need to show careful research and the ability to draw valid and specific conclusions from your data. You'll work closely with a committee of three graduate faculty members, who will need to approve your thesis topic, proposal, and final project when you are finished.

What a thesis requires:

1. Student must have completed at least 12 credit hours and have a committee of three faculty members.
2. The candidate's advisor, committee members, and departmental chairperson must electronically sign the Topic Approval Sheet approving the subject. The electronic Topic Approval and the abstract outlining the topic must be turned into the Graduate School via electronic submission for approval by the candidate's advisor, committee members, and departmental chairperson and final approval by the Associate Dean before registering for THES 698. Form can be found on the Graduate School website under Tools, Forms, and Resources.
3. The student who writes a thesis must enroll in THES 698, for a total of 6 hours of credit after receiving approval from the Graduate School. Students should not register for THES 698 until after the successful proposal meeting and after the Topic Approval Sheet has been submitted to the Graduate School via electronic submission and you have received an email notification that your topic has been approved. A student must also be in good academic standing to register for THES 698. The thesis is not used to meet the requirements for any course except THES 698. The grading system used for THES 698 is credit/no credit.
4. Student must apply to graduate in order to receive submission instructions. Graduation application deadlines can be found on the Graduate School website under Dates and Deadlines.
5. The approved thesis must be submitted to the Graduate School via electronic submission in final form at least four weeks before the close of the semester or term in which the student is to be certified for graduation. The submission deadline is listed on the Graduate School website under Dates and Deadlines.
6. The final copy of the approved thesis, any accompanying materials, and a 250- to 300- word abstract of the thesis describing the nature of the study and findings must be submitted to the Graduate School electronically using the instructions sent to you via e-mail by the Graduation Coordinator. Again, you will not receive these instructions unless you applied to graduate by the graduation application deadline on the Graduate School website under Dates and Deadlines.

CREATIVE PROJECT OVERVIEW

What is it?

The creative research project (3 or 6 hours) must be in the student's concentration area. Examples of creative projects are a musical arrangement, composition, or recital; painting(s), sculpture, or a craft project; a literary composition; and instructional units in science or social science.

The creative project must be supported by a written report that includes background research and other significant information basic to the project, as well as a thorough description of the project itself. A creative research project must show evidence of superior craftsmanship and creative scholarship and must be limited to students, on the recommendation of the department chairperson, who are capable of exhibiting these traits. You'll work closely with a committee of three graduate faculty members for the 6-hour creative project and your advisor for the 3-hour creative project, who will need to approve your creative project topic, proposal, and final project when you are finished.

What a creative project requires:

1. Student must have completed at least 12 credit hours and have a committee of three for the 6-hour project and an advisor for the 3-hour project.
2. The candidate's advisor, committee members, and departmental chairperson must electronically sign the Topic Approval Sheet approving the subject for the 6-hour project. The candidate's advisor and departmental chairperson will sign for 3-hour projects. The electronic Topic Approval Form and the abstract outlining the topic must be turned in to the Graduate School via electronic submission for approval by the candidate's advisor, committee members, and departmental chairperson and final approval by the Associate Dean before registering for CRPR 698. The link for the electronic form can be found on the Graduate School website under Tools, Forms, and Resources.
3. The student must enroll in CRPR 698, for a total of 3-or-6 hours of credit after receiving approval from the Graduate School. Students should not register for CRPR 698 until after the successful proposal meeting and after the Topic Approval Sheet has been submitted to the Graduate School via electronic submission and you have received an email notification that your topic has been approved. A student must also be in good academic standing to register for CRPR 698. The creative research project is not used to meet the requirements for any course except CRPR 698. The grading system used for CRPR 698 is credit/no credit.
4. Student must apply to graduate in order to receive submission instructions. Graduation application deadlines can be found on the Graduate School website under Dates and Deadlines.
5. The project in its final approved form must be submitted to the Graduate School via electronic submission at least four weeks before the close of the semester or term in which the candidate is to be certified for graduation. The submission deadline is listed on the Graduate School website under Dates and Deadlines.
6. The final copy of the approved project, any accompanying materials, and 250- to 300- word abstract of the project describing the nature of the project must be submitted to the Graduate School electronically using the instructions sent to you via e-mail by the Graduation Coordinator. Again, you will not receive these instructions unless you applied to graduate by the graduation application deadline on the Graduate School website under Dates and Deadlines.

RESEARCH PAPER OVERVIEW

What is it?

You can earn 3 hours of graduate credit by completing a research paper on a topic directly related to your degree or area of specialization. This paper must be an original study of non-thesis proportions showing that the candidate possesses the abilities to pursue a research problem successfully and to draw valid and significant conclusions from the data. You'll work closely with your advisor, who will need to approve your research paper topic, proposal, and final project when you are finished.

What a research paper requires:

1. Student must have completed at least 12 credit hours and have an advisor for the 3-hour project.
2. The candidate's advisor and departmental chairperson must electronically sign the Topic Approval Sheet approving the subject for the 3-hour project. The Topic Approval Sheet approving the subject for the 3-hour project and the abstract outlining the topic must be turned into the Graduate School via electronic submission for approval by the candidate's advisor and departmental chairperson and final approval by the Associate Dean before registering for RES 697. The link for the electronic form can be found on the Graduate School website under Tools, Forms, and Resources.
3. The student must enroll in RES 697, for a total of 3 hours of credit after receiving approval from the Graduate School. Students should not register for RES 697 until after the successful proposal meeting and after the Topic Approval Sheet has been submitted to the Graduate School via electronic submission and you have received an email notification that your topic has been approved. A student must also be in good academic standing to register for RES 697. The research paper is not used to meet the requirements of any course except RES 697. The grading system used for RES 697 is credit/no credit.
4. Student must apply to graduate in order to receive submission instructions. Graduation application deadlines can be found on the Graduate School website under Dates and Deadlines.
5. The paper in its final approved form must be submitted to the Graduate School via electronic submission at least four weeks before the close of the semester or term in which the candidate is to be certified for graduation. The submission deadline is listed on the Graduate School website under Dates and Deadlines.
6. The final copy of the approved research paper, any accompanying materials, and a 250- to 300-word abstract of the research paper describing the nature of the study and findings must be submitted to the Graduate School electronically using the instructions sent to you via e-mail by the Graduation Coordinator. Again, you will not receive these instructions unless you applied to graduate by the graduation application deadline on the Graduate School website under Dates and Deadlines.

NOTE*Your thesis, creative project, or research paper is a professional document and should meet professional standards in content and appearance. The Graduate School has established guidelines to ensure uniformity in style and format, and your document must meet these standards to be approved.*******

Research Ethics and Compliance

RESEARCH ETHICS

Students should conduct and report the results of their research in an ethical manner.

Ethical misconduct in research is any falsification, fabrication, and plagiarism in proposing, conducting or disseminating research or other creative activities.

Fabricating research findings entails making up results, and falsifying research results refers to changing, misrepresenting, or selectively reporting findings. These acts violate the integrity of the research process and are serious breaches of accepted ethical standards. Students at all stages of the research process are required to conduct their research in an open and honest manner and make every effort to ensure the accuracy of their findings.

Plagiarism is the intentional or unintentional use of the phrasing, ideas, and depictions of publicly available work without appropriately acknowledging their sources. Using the work of another without acknowledgment of the original sources constitutes plagiarism and is subject to penalty. Students at Ball State University are expected to maintain the ethical standards in proposing, conducting, and reporting their research in the research project, thesis, creative project or dissertation.

RESEARCH COMPLIANCE

The Office of Research Integrity (ORI) handles most research related regulatory activities at BSU, including administering the Institutional Review Board (IRB), the Institutional Animal Care and Use Committee (IACUC), Responsible Conduct of Research (RCR), Radiation Safety (RSC), Institutional Biosafety Committee (IBC),

Laboratory Safety and Security (LSSC), Federal Significant Conflicts of Interests (SFCI), and so forth. Any questions concerning these areas should be directed to the Office of Research Integrity. Research involving human participants, animals (lab and field), certain biological agents, and/or radioactive materials must receive the appropriate committee's approval before any research with these can begin. In some cases, multiple committee reviews may be needed.

INSTITUTIONAL REVIEW BOARD SUBMISSION

IRB must be obtained prior to any data being collected in research including human participants in any way.

Step-by-Step

1. Complete CITI Training.
2. Principle Investigator (PI) and all team members must complete all required CITI trainings before approval can be granted.
3. PI and all team members should complete the CITI training course that most closely aligns with their research area (i.e. Social and Behavioral or Biomedical)
4. If the research is support by National Science Foundation (NSF) funds, the PI and all team members must also complete the CITI RCR courses.
5. Register on IRBNet.
6. Review submission deadlines for the Institutional Review Board.
7. Complete all pieces of the application. This will include the Human Subjects Research Application and Narrative form, along with any additional relevant documents. This might include informed consent documents, surveys, recruitment letters or e-mails, and so forth. You may want to review some of the IRB resources.
8. Upload your project to IRBNet.
9. Share your project with your advisor and team members (if applicable).
10. The Principal Investigator and Faculty Advisor (if PI is student) must electronically sign off on the project.
11. If the research is for a dissertation, then only the Faculty Advisor needs to complete CITI and e-sign the protocol. The entire Dissertation committee does not need to do these.
12. If the research will take place off-site, at another organization, etc. you will need to get letters of support from those site/organizations. This needs to be on their letterhead and signed by someone in a position of authority to grant you permission to conduct your research there. (i.e. If you wish to collect data at a high school you must receive written permission from the superintendent of the school corporation.)

NOTE: *If this is your first time submitting a research protocol, the Office of Research Integrity has a Peer Mentor Program to help. The Peer Mentor Program gives researchers one-on-one assistance in preparing and submitting their protocols. This can help speed up the submission process. Following the initial submission of your protocol, you may be asked to make some revisions before your project will be reviewed. If these pre-review revisions are not made and submitted within 30 days, your project will be withdrawn and must be re-submitted as a new project.*****

Registration

REGISTRATION REQUIREMENTS

After receiving approval for RES 697, THES 698, or CRPR 698 all master's degree candidates must register for THES, CRPR, or RES hours. If not registering for a course or courses, the candidate will register for MAST 600, Master's Candidate, for a fee of \$75. Registration in MAST 600 will give the master's candidate the rights and privileges of a regular student.

A master's candidate may also take MAST 600 under other circumstances when not registered for a course or courses—for instance, while working off an incomplete grade—with the approval of the candidate's committee chairperson, the department advisor, and the Associate Dean of the Graduate School.

Graduate School Final Submission Requirements

FORMATING REQUIREMENTS

Formatting requirements are based on the needs of Ball State's online submission site. ******NOTE: The following requirements are specific to the Graduate School. Different programs may have different requirements. Make sure to see your department chair or advisor on the program specific details.******

Margins

Left. 1"

Right. 1"

Top. 1"

Bottom. 1"

These apply to all material except: page numbers, including figures, headers/footers, footnotes/endnotes, and full-page images

Page Numbering

Page numbers must be at least $\frac{3}{4}$ " from the edge of the paper

Spacing

Double-Space: abstract, dedication, acknowledgements, table of contents, body of manuscript, except for quotations as paragraphs, captions, items in tables, lists, graphs, charts

Single-Space: footnotes/endnotes, bibliographic entries, lists in appendices

Font

Font size for body text may be from 10- to 12 point and should remain consistent throughout the front matter and main text and must be easily legible

Font size and type may differ for footnotes, figure captions, table data, references, and material in an appendix and may be as small as 9-point

Document Type

All papers must be saved as a PDF file.

Attachments

- No embedded media files in your PDF are allowed.
- Upload media files as supplementary files: During online submission, you will be asked to upload any supplementary files.
- Describe files in your abstract: Add a description of each supplementary file in your abstract.

Signatures

Pages or forms with signatures are not to be included in upload.

SUBMISSION REQUIREMENTS

Required electronic forms to be submitted to Graduate School:

- **Final Project Upload for 3 hour RES 697 or CRPR 698, or Final Project Upload for 6 hour CRPR 698 or THES 698:** this form can be found on the Tools, Forms, and Resources Page under Forms for Master's Students. Please make sure to select the appropriate credit hours of your final project. The title page and abstract will be uploaded here in addition to the other required components listed below.
- **Title page:** title of paper, name, degree, requirements being fulfilled, full name of institution, advisor, and month and year of graduation. Use only capital letters. See the Tools, Forms, and Resources section of the Graduate School website for samples.
- **Abstract:** 250-to 300- words. See the Tools, Forms, and Resources section of the Graduate School website for samples.
- In addition to these two required components, students completing a Thesis should include an acknowledgement page and a table of contents. A dedication is optional and can be included if students so desire.

Electronic Submission

ELECTRONIC SUBMISSION OVERVIEW

Ball State University has implemented a policy that all master's degree theses, research papers, creative projects, and doctoral dissertations are to be submitted electronically. This means that the Graduate School will not accept paper copies of graduate student research projects. The goals of the Graduate School in requiring electronic submission include seeking to instruct graduate students about electronic document preparation and how to use digital libraries. Moreover, many research projects go beyond the traditional text-only format, which cannot be captured in paper copy alone, and this initiative will allow worldwide accessibility to Ball State student research.

STEPS

Your account will be activated about four weeks prior to the final submission deadline. The following are instructions for final submission:

1. Create two PDF files. The first PDF file will contain your abstract only. The second PDF file will contain the body of the paper. This includes the Title Page, Acknowledgments, Bibliography, and Appendices (if any).
2. It may be helpful to have your advisor or chair review and approve of the formatting before uploading the document.
3. Prepare additional attachments to be uploaded (if any). These could include videos, pictures, and musical compositions. These attachments do not have to be in PDF form, but should be in a form appropriate to the type of attachment.
4. Your committee members are notified once you've completed the submission process and they must electronically sign off on the documents as well.

As a consideration for your committee's busy schedule, make sure to give a full week for them to review your uploaded project and sign.

******Note: All materials MUST be formatted following the Graduate School Requirements detailed in the previous section. ******

PUBLICATION AND COPYRIGHTING

Delay of Publication

Authors may request a publication restriction as part of the **Final Project Upload for 3 hour RES 697 or CRPR 698, or Final Project Upload for 6 hour CRPR 698 or THES 698 submission process**. While such restrictions are not generally recommended by the Graduate School, there are cases where their use may be prudent (e.g. patent applications, proprietary data, article and monograph publishing, etc.). Careful consideration should be given before deciding.

Please keep in mind that exercising a restriction will prevent copies of your thesis, creative project, or research paper from being made available to others outside the University who wish to read about your research in a timely fashion. If you are considering a delay of publication please discuss the matter with your committee chair or advisor. See the electronic **Final Project Upload for 3 hour RES 697 or CRPR 698, or Final Project Upload for 6 hour CRPR 698 or THES 698** form for more information regarding the release or delay of publication of your work.

DUE DATE FOR SUBMISSION

All papers and projects must be received in the Graduate School at least 1 month prior to the intended date of graduation. It is recommended that you seek approval by your committee 3 weeks prior to the suggested submission date, in other works, 7 weeks prior to the intended graduation date. See the Graduate School website for dates and deadlines.

******Note: It is best to discuss with your faculty advisor and set actual deadlines for your work rather than guesstimating.******

Student's Responsibilities for Graduation

APPLICATION FOR GRADUATION

Please remember, graduation is not automatic. You must apply to graduate whether or not you plan to participate in the ceremony. You will need to complete the application within the first four weeks of the semester in which you plan to graduate or the first two weeks of the summer semester. All graduate students who plan to graduate and participate in a ceremony must complete the following two-step process:

Step 1 -Eligible students must complete an application to graduate for each degree and/or certificate. Log into Self-Service Banner (SSB) at my.bsu.edu and click on the "Student" tab, then click on "Student Records", and then "Apply to Graduate." Your account will be charged \$25 per graduation application and will appear on your e-bill.

Step 2 -Participants will need to order the necessary materials such as the cap, gown, and tassel. We ask that you get all your materials early in case something needs to be returned or exchanged.

CHECKLIST FOR GRADUATION

All of the below items must be completed to be considered for degree conferral!

- Remove any incompletes (departmental responsibility).
- Upload and electronically submit the final research paper, thesis, or creative project. This includes the abstract, title page, and acknowledgement page (if applicable).

ESSENTIAL FORMS NEEDED TO GRADUATE

After completing capstone project you need to submit the following via electronic submission:

- **Final Project Upload for 3 hour RES 697 or CRPR 698, or Final Project Upload for 6 hour CRPR 698 or THES 698** -- to be submitted electronically
- **Title Page**-- to be included in online submission
- **Abstract** – to be included in online submission

Frequently Asked Questions (FAQs)

I'm not sure if my project requires IRB/Research Compliance review. How do I determine this?

If you have any questions, please contact the Office of Research Integrity.

Do I have to submit my research protocol to IRB/Research Compliance before turning in my Topic Approval Form to the Graduate School?

You must evaluate whether your project needs research compliance (IRB) approval before turning in your topic approval form to the Graduate School. If your protocol requires research compliance approval but it has not been submitted, you may turn in your topic approval form to the Graduate School as long as you attach an explanation of why your protocol has not been submitted and discuss your timeline for submission.

I've submitted a Topic Approval Sheet, but one of the committee members has since left Ball State. What do I do?

You will need to submit a new electronic Topic Approval form to the Graduate School with the new committee.

How do I know if I have completed my degree requirements?

Coursework and degree requirements are determined by your department. Contact your department or graduate advisor to inquire.

I've submitted my Application for Graduation and I'm ready to upload my creative project, dissertation, research paper, or thesis. When can I upload?

You will receive an email to your Ball State email account from the Graduation Coordinator when the site is available for upload. The email will include the link to the site as well as instructions for uploading. Generally, this email is sent six weeks before the end of the fall/spring semester and four weeks before the end of a summer semester. You will only receive an e-mail if you have applied to graduate for that semester. If you don't receive an e-mail, please contact gradschool@bsu.edu.

Are there any tips to follow that will help make the electronic upload of my creative project, dissertation, research paper or thesis go smoothly?

Please make sure that you upload your document as a PDF. If uploading accompanying files, please upload as follows: music file-.mp3 format, video-.mp4 format.

I've submitted my Application for Graduation for the current semester but realize I'm not going to meet the deadline for completing degree requirements. Can I change my graduation date?

To change your graduation date, send an email to the Graduation Coordinator requesting that your application for graduation be canceled for the current term. You will need to reapply for graduation through SSB for the appropriate term. *Make sure to let your program director know of this change. If you postpone graduation to a later semester, you will be required to submit a new application for graduation and pay the application fee again.

After I have submitted the Application for Graduation, how do I pay the \$25 application fee?

The application fee is assessed by the Bursar's Office and will appear on your student account. Be sure to monitor your student account to make payment by the due date. Student account questions may be addressed to the Bursar's Office at (765) 285-1643 or bursar@bsu.edu.

When will I receive my diploma?

Diplomas are mailed from the Commencement Office and take approximately 4-6 weeks to arrive to the student. It may take longer to arrive, if the destination is outside of the United States.

For master's degree students, regardless of whether or not you attend commencement, the diplomas are mailed from the Commencement Office and take approximately 4-6 weeks to arrive to the student. Please allow additional time if the destination is outside the United States.
