
New Grad Cover letter for Software Engineer Position Example

Dear Hiring Manager,

As a recent Computer Science graduate with hands-on experience in software development through my university projects and internships, I am excited about the opportunity to apply my skills in a professional setting at your esteemed organization.

I am skilled in several programming languages including Python, Java, and C++. In my final year project, I developed a web application using these technologies that significantly improved the efficiency of student-faculty communication within the university.

I am a quick learner and have a keen interest in emerging software technologies. I am confident that my technical abilities and dedication to improving software quality would add value to your team.

Sincerely,

[Your Name]
