Self Taught Software Engineer Cover letter Example

Dear Hiring Manager,

I am applying for the Software Engineer position at XYZ Company. As a self-taught software developer with a passion for learning and problem-solving, I am confident in my ability to contribute effectively to your team.

Over the last three years, I have developed a variety of software projects using languages such as Python, Java, and JavaScript. I have also gained hands-on experience with frameworks such as Django and Spring, and I have become proficient in agile methodologies.

I am eager to bring my self-directed learning, adaptability, and strong coding skills to XYZ Company, and I look forward to the opportunity to contribute to your software development efforts.

Sincerely,

[Your Name]
