

# Police Investigation Report

---

**Date of Investigation:** October 15, 2024

**Location:** [Incident Location], [City, State]

**Prepared by:** [Your Name]

**Position:** Investigating Officer

A police investigation was conducted on **October 15, 2024**, at **[Incident Location]** following a report of a **suspected burglary**. The purpose of the investigation was to gather evidence, interview witnesses, and determine the circumstances surrounding the incident.

## Incident Overview:

At approximately **9:30 PM**, a call was made to report a break-in at **[Victim's Name]'s residence**. Upon arrival, officers observed a broken window and signs of forced entry at the back door. The homeowner, **[Victim's Name]**, reported several valuables missing, including electronics and jewelry.

## Investigation Details:

- **Evidence Collected:**

Officers collected **fingerprints** from the broken window and **footprints** from the backyard leading away from the property. A **crowbar** was found near the back door, likely used to pry open the lock.

- **Witness Statements:**

Neighbors, **Mr. John Doe** and **Ms. Jane Smith**, were interviewed. Mr. Doe stated that he heard glass breaking around 9:15 PM but did not see anyone. Ms. Smith reported seeing a suspicious individual wearing dark clothing and a hoodie leaving the area at the time of the incident.

- **Security Footage:**

A nearby house had security cameras that captured footage of the suspect fleeing the scene. The footage showed a **male suspect** wearing a dark hoodie and gloves, leaving the residence on foot.

**Findings:**

Based on the evidence collected, including fingerprints, the suspect is believed to be a **male**, approximately **6 feet tall**, wearing dark clothing at the time of the burglary. The **crowbar** found at the scene was sent for forensic analysis. The **security footage** and **witness statements** are being used to identify the suspect.

**Conclusion:**

The investigation is ongoing. Officers are continuing to gather evidence, analyze the forensic data, and identify the suspect based on the security footage and witness descriptions.
