

Graphic Organizer Summary Writing

A graphic organizer for summary writing helps visually organize information, making it easier for students to identify key points and structure their summaries effectively. Here's how a graphic organizer for summary writing can be structured:

1. Title of the Text

At the top, write the title or subject of the text you're summarizing.

2. Main Idea Box

In the center, include a large box labeled **Main Idea**. This box is for the central theme or core argument of the text.

3. Supporting Details Boxes

Surround the main idea with 3–5 smaller boxes labeled **Supporting Details**. These boxes should include key points or arguments that support the main idea.

4. Conclusion Box

Below the supporting details, add a box labeled **Conclusion**. This is where students summarize the overall conclusion or outcome of the text, if applicable.

5. Summary Box

At the bottom, add a box labeled **Summary**. This is where students combine the information from the main idea, supporting details, and conclusion into a concise summary in their own words.

Example Layout:

- **Title**
- **Main Idea** (central point of the text)
- **Supporting Detail 1**
- **Supporting Detail 2**
- **Supporting Detail 3**
- **Conclusion**
- **Summary**

Benefits of Using a Graphic Organizer for Summary Writing:

- Helps visually structure thoughts.
- Breaks down complex information into manageable sections.
- Encourages clear identification of main ideas and supporting points.
- Improves summary writing skills by organizing content effectively.
