

# Program for School

---

## **Objective**

The Holistic Student Development Program is designed to enhance academic performance, foster personal growth, and promote extracurricular engagement among students. The program focuses on building essential skills, nurturing creativity, and improving overall well-being to prepare students for future challenges.

## **Target Audience**

Primary, middle, and high school students aiming to excel academically while exploring their talents and interests.

## **Duration**

The program will run throughout the academic year, from September 2025 to June 2026, with weekly and monthly activities.

## **Scope**

The program includes:

- Academic support through after-school tutoring and subject-specific workshops.
- Personality development activities like leadership training and public speaking.

- Health and wellness initiatives, including fitness classes and mental health counseling.
- Extracurricular opportunities such as art, music, sports, and STEM projects.

## **Budget**

The estimated budget is \$30,000, covering resources for academic materials, activity equipment, professional instructors, and counseling services.

## **Schedule**

- **Daily:** Homework assistance and tutoring sessions.
- **Weekly:** Extracurricular activities, including sports and creative arts.
- **Monthly:** Themed workshops on topics like time management, leadership, and career exploration.
- **Quarterly:** Parent-teacher-student interaction sessions to discuss progress and feedback.

## **Team**

- **Program Coordinator:** Oversees all activities and ensures alignment with program objectives.
- **Teachers:** Provide academic support and lead workshops.
- **Counselors:** Offer mental health support and guidance.
- **Activity Instructors:** Conduct extracurricular activities such as sports, music, and arts.
- **Volunteers:** Assist in organizing events and supporting students during activities.

## **Resources**

- Study materials and educational tools for academic support.
- Art supplies, musical instruments, and sports equipment for extracurricular activities.
- Counseling rooms and wellness kits for health initiatives.
- Technology resources for STEM projects and digital learning.

## **Evaluation**

The program's effectiveness will be assessed through academic progress reports, student feedback, participation rates, and skill development metrics. Regular parent-teacher meetings and end-of-year reviews will help refine the program for future implementation.
