The Honorable Susan Reynolds

Department of Environmental Protection

State Government Office

789 Capitol Street

Sacramento, CA 95814

Subject: Request for Improved Waste Management Policies

Dear Ms. Reynolds,

I hope this letter finds you well. I am writing to formally address the growing concerns regarding **waste management and environmental sustainability** in our community. As a resident of Los Angeles and an advocate for environmental conservation, I would like to bring attention to the urgent need for **enhanced waste disposal systems, stricter regulations on plastic usage, and increased recycling initiatives** to ensure a cleaner and healthier environment for all.

In recent years, our city has witnessed a rise in **illegal dumping, inefficient waste collection, and improper disposal of hazardous materials**, which pose serious health and environmental risks. Despite existing regulations, the lack of proper enforcement and awareness has resulted in increasing pollution levels. To address these issues, I respectfully request the Department of Environmental Protection to consider implementing the following measures:

- **Strengthening waste segregation policies** to encourage recycling and reduce landfill waste
- **Expanding public awareness campaigns** to educate citizens on responsible waste disposal practices
- **Enhancing waste collection services** to ensure timely and efficient garbage removal in all neighborhoods
- **Introducing stricter penalties** for companies and individuals who violate environmental waste laws

I believe that these actions will significantly improve waste management efforts and contribute to a cleaner and more sustainable future. I kindly urge your department to **review current policies and consider necessary amendments** to enhance environmental protection measures. If possible, I would appreciate the opportunity to **discuss this matter further** in a meeting or community forum where residents can share their concerns and suggestions.

Thank you for your time and attention to this important issue. I appreciate your dedication to environmental sustainability and look forward to your response regarding potential solutions and actions. Please feel free to contact me if additional information is required.

Sincerely,
Michael Harrison
