Report Title: Office Fire Safety Compliance Audit

Date: February 25, 2025

Location: Corporate Office, Tech Innovations Ltd.

Prepared By: Linda Hart, Health and Safety Coordinator

Executive Summary

This report summarizes the findings from a fire safety compliance audit conducted at the corporate offices of Tech Innovations Ltd. It highlights key areas of concern, assesses the current fire safety measures in place, and provides recommendations to enhance safety standards and compliance.

Introduction

The aim of this report is to evaluate the fire safety protocols at the Tech Innovations corporate office following a recent fire drill that exposed several safety concerns. The objective is to ensure all safety measures align with national safety standards and to recommend improvements where necessary.

Incident Details

- **Date of Audit:** February 20, 2025
- **Location:** Main office building, Tech Innovations Ltd.
- **Type of Audit:** Fire Safety Compliance Audit

Incident Description

During the fire drill conducted on February 15, 2025, several issues were noted, including blocked fire exits, non-functioning fire alarms, and employees unclear about evacuation routes. These issues prompted a thorough safety audit.

Cause Analysis

The audit revealed multiple causes for concern:

- Fire exits were obstructed with storage boxes and equipment.
- Several fire alarms were found to be non-operational due to lack of maintenance.
- A significant number of employees were not familiar with the evacuation procedures, indicating insufficient training.

Impact Assessment

These deficiencies in fire safety measures could lead to severe consequences in the event of an actual fire, including potential injuries or fatalities and property damage. Immediate action is necessary to address these issues to protect employees and company assets.

Recommendations

1. Clear all fire exits immediately and implement a routine check to maintain clear access.
2. Schedule regular maintenance for all fire safety equipment and ensure that all fire alarms are functional.
3. Develop and implement a comprehensive fire safety training program for all employees, with mandatory attendance and periodic refresher courses.

Appendices

Appendix A: Audit Checklist and Findings

Appendix B: Employee Survey on Fire Safety Awareness

Appendix C: Proposed Fire Safety Training Agenda

Approval
