

Mot Annual Training Record

Employee Information

Name: Richard Green

Position: Vehicle Technician

Employer: Green Auto Services

Training Date

Year: 2025

Training Provider

Provider: Automotive Training Solutions

Training Module Title

Title: MOT Annual Assessment 2025 – Vehicle Safety Protocols

Objectives of Training

Goals: The objective of the annual MOT (Ministry of Transport) training was to ensure that vehicle technicians are up-to-date with the latest industry standards and regulations concerning vehicle inspections and safety checks. This training is required for maintaining MOT testing certification and focuses on enhancing understanding of current testing criteria and procedures.

Skills Acquired

Details: Richard updated his knowledge on the latest MOT testing guidelines, including changes to safety protocols, emission standards, and the introduction

of new testing technology. The training also reinforced best practices in conducting thorough and compliant vehicle inspections.

Duration of Training

Duration: The training included a combination of online learning modules and a practical assessment, spread over a total of 5 hours.

Assessment Results

Performance: Richard successfully passed the annual MOT assessment with a high score, demonstrating his proficiency in the updated testing procedures and adherence to safety regulations.

Comments/Feedback

Feedback: Richard found the training to be highly beneficial, particularly the updates on new testing technologies that can help streamline the inspection process. He suggested more hands-on workshops for future training sessions to further enhance practical skills among technicians.

Certification Status

Status: Following the successful completion of the training and assessment, Richard's certification for conducting MOT tests was renewed for the year 2026.
